EDUCATION

University of Pennsylvania **Philadelphia, PA**
Master of Science in Applied Economics and Data Science *August 2026 – December 2027*
- Core Coursework: Computational Methods, Causal Inference, Real Analysis, Statistical Inference

Wake Forest University **Winston-Salem, NC**
Bachelor of Arts in Economics, Minor in Statistics *August 2022 – May 2026*
- Cumulative GPA: 3.75/4.00; High Honors in Economics, Omicron Delta Epsilon, Dean's List *(all semesters)*
- Core Coursework: Applied Prediction and Machine Learning, Statistical Computing, Applied Econometrics
- Studied at University of Southern California in Fall 2024; Dornsife Dean's List

PROFESSIONAL EXPERIENCE

China Zheshang Bank **Shanghai, China**
Financial Analyst Intern *June 2026 – present*
- Assisted with bond underwriting and investment activities related to China Eastern Airlines' RMB 1 billion, 3-year medium-term note issuance at a 1.62% interest rate
- Co-drafted 3+ corporate credit assessment reports, analyzing financial statements, operating performance, repayment capacity, and credit risks to support corporate lending decisions
- Contributed to on-site due diligence and client interviews by reviewing corporate financial and operational information, and attended credit review meetings as part of the corporate credit evaluation process

Shenzhen Capital Group **Shanghai, China**
Investment Research Analyst Intern *June 2023 – August 2023*
- Authored a 12-page industry white paper on the Chinese furniture sector, covering business background, historical performance, major offerings, and growth potential of two leading companies; synthesized findings into a 10-page executive summary deck and presented investment analysis and recommendations to senior staff
- Built a time series database in Python and ran linear regression in R to analyze historical sales data from real estate and consumer goods firms, identifying a positive relationship between furniture and housing sales
- Predicted net profit growth rate of -23% for a listed furniture company based on home sales analyses, assigning a neutral trading rating due to market underestimation and post-COVID potential

PROJECT EXPERIENCE

Huatai Securities **Nanjing, China**
Quantitative Part-Time Analyst *June 2025 – August 2025*
- Built a local MySQL database using Tushare to collect 5 years of Chinese A-share price data and 3 years of financial report data; implemented Python ETL pipelines for automated updates and data transfer
- Engineered 100+ factors across growth, fundamentals, quality, sentiment, risk, and momentum; applied MAD winsorization, Z-score standardization, and market-cap residual neutralization; evaluated factors daily via IC, IC-IR, and Rank IC to build a tradable factor library with factors exceeding a 60% win rate
- Backtested value-weighted and score-rank long-only portfolios across multiple rebalancing windows, optimized factor weights to maximize risk-adjusted returns, and delivered automated calculation tables and a summary report with performance results, factor weight limits, and rebalancing recommendations

RESEARCH EXPERIENCE

Do H-1B workers substitute for or complement U.S. domestic workers? **Winston-Salem, NC**
Economics Honors Thesis at WFU (High Honors, Advisor: Dr. Mouton) *May 2025 – April 2026*
- Examined the effects of H-1B employment on domestic employment and wages using a 2015–2024 panel dataset covering 50 states and 22 occupations, applying a Bartik shift-share IV to address endogeneity
- Estimated that a 1% increase in H-1B employment was associated with a 0.135% increase in domestic employment and a 0.056% decrease in wages within occupations, with a larger state-level employment effect of 0.650%
- Evaluated policy implications and conducted robustness checks using STEM subsamples and specifications excluding outlier states to assess the consistency of estimated employment and wage effects

SKILLS & INTERESTS

Technical Tools: Python, R, SQL, Git, STATA, Excel
Languages: English and Chinese Mandarin (Native)
Interests: Basketball, Soccer, Snooker, Golf, Travel, Music, Photography
